

FOR IMMEDIATE RELEASE

CMA Technology Solutions and CamSoft Data Systems Join to Create Premier Technology Company

Deal Will Create One of the Region's Leading Managed Services Providers

BATON ROUGE, Louisiana (April 20, 2010) – CMA Technology Solutions, Inc., a leading IBM Premier Business Partner specializing in enterprise technology solutions, and CamSoft Data Systems, Inc., a Microsoft Business Partner, concentrating on application development, managed services, and wireless solutions have entered into a definitive agreement, under which certain assets and services of CamSoft Data Systems will become part of CMA Technology Solutions. The transaction is scheduled to close May 1, 2010.

CamSoft Data Systems, Inc is a leader in Managed Services for the Small and Medium Business (SMB) market and has developed a proprietary platform to help businesses reduce IT costs up to 70%. “CamSoft and CMA have enjoyed a long standing partnership and this transaction is another step towards the growth of our relationship.” said Carlo MacDonald, CEO of CamSoft. “This agreement will further maximize our potential as a leading technology provider and enhance services to our current and future customer base.”

CamSoft's Application Development division will continue to operate under the new name with increased emphasis on growing market share and increasing expertise in new mobile and web development platforms.

CMA Technology Solutions has traditionally focused on the enterprise market. This merger will give CMA additional access to the growing SMB markets. "We are excited for the many opportunities that the addition of CamSoft will provide for our clients. The combined company will be better positioned to compete effectively in the continually expanding Managed Services market." said Chad LeMaire, CEO of CMA Technology Solutions.

CMA is lead by partners Ben Cherbonnier, President of CMA, LeMaire, Dave Renoud, EVP of Technical Services and Lewis Hannaman EVP of Sales & Marketing. Carlo MacDonald will become an associate partner in the company and take a leadership role in growing the company's services divisions.
